

# Cloud-based Storage for Your Pay Stubs & Year-end Tax Forms

## Online Storage That's Seamless, Secure & Accessible

You're moving your payroll system to the cloud, and you need the transition to go seamlessly. You need to know all of your data will be moved safely, maintained securely, and be available when you or your employees need it — during and after the move.

The CIC Plus Cloud Transition Solution does all of that for you.

We host your payroll data from your previous system and create a managed archive that gives you — and your employees — an easy-to-access and secure location for all of your important data.

With the CIC Plus Cloud Transition Solution, you won't worry about:

- + Data loss
- + Disruptions in your payroll processes
- + Frustrated employees — active or terminated — who can't access their data
- + Failing to comply with federal and state regulations regarding data retention
- + Ongoing license fees to your legacy system provider

**You provide the data. We take care of the rest.  
In the Cloud.**
